

## **Work Experience**

Here's how it works.

The school pays the student minimum wage to work for you for free so they can gain knowledge and experience in the work force. We also provide workers compensation insurance. Students are placed by their career interest so the possibility of having a student every year may vary. If that interest is unavailable they are given other options that will meet their needs.

## **Mission statement**

The work experience program at CCHS will provide students with real-life, on-the-job training and the vocational skills they require to successfully transition from high school to the work force.

## **Learning by doing**

## Employer

### What we need from you...

Employers will be asked to work with the students to gain skills in....

- Employer expectations
- Customer service
- Work place standards
- Co-worker relations
- Safety
- Self-management

Note-

In most cases the students have no experience in the work force and will need instruction on how to be a good employee.

## Students

Students will be asked to meet certain requirements to qualify and stay in the work experience program.

Students will be required to

1. Keep their grades up at passing levels.
2. Have no behavior issues at school.
3. Follow the instruction of their employer.
4. Show up at their scheduled time.
5. Call into work asap when they are sick.
6. Schedule absences ahead of time for finals or school activities.
7. Give notice if they are unable to continue working.

## Time limit for participation

- Students would be limited to no more than 150 hours at minimum wage. (May vary depending on that year's budget)
- If the student or employer has an issue beyond a training opportunity they are asked to consult me. If it is a situation where the placement is not working the students will be moved. In some extreme cases the student may be fired from the program.
